NOTE: This review is conducted by the POD leader, AHO, or HO – not by the on-the-mat official. The mat official's input in the learning experience is minimized (as a watcher and student) to ensure that the Lead Official can conduct the review in an unbiased manner. The Lead will inform the official what they saw; they will work together to expedite the learning curve. The mat official then explains the process to the coach in terms of what was seen and how the rules were applied.
